

# AGRA-SHIELD /20

Vulcanized and coated fitting

## APPLICATION

Used in all those applications in which the food (liquid or solid) must absolutely not come into contact with the metal surfaces of the fittings. Furthermore, with this structure, the usual accumulation of material that forms at the end of fittings tail end of common food hoses equipped with crimped fittings, is completely eliminated

## TUBE

White, smooth in **EPDM** rubber, food quality, odorless and tasteless. The numerous compact rubber layers also form the front seal of the flanges

## REINFORCEMENT

High strength synthetic plies, with incorporated metal spirals

## COVER

Blue, corrugated, cloth impression, in **EPDM** rubber, resistant to abrasion, ozone and weathering

## SPECIFICATIONS

FDA title 21 art.177.2600 (e) for liquid foods, BfR, ADI free, CE 1935/2004, PHTHALATE FREE

## FITTINGS

This application, requires the complete rubber shielding of the fitting, is foreseen only for flanged connections, allowing such protection. The geometry specification of the flange is on customer request

## BRANDING
